Dear Parent/Carer

iPad Security & Insurance Cover in public places and on public transport

We are writing to highlight how important it is that your child keeps their iPad secure at all times.

We have had a couple of incidents where iPads have been lost or left in public places. Please be aware **that the insurance provided with the iPad does not cover these types of incidents**, the wording within the policy is that the iPad is:

“ not covered whilst in any form of public transport or other public place unless the property is taken by actual or threatened force.”

Should your child lose their iPad without actual & threatened force for instance by just leaving it on the bus, you will not be covered and would have to make a claim on your own household insurance. We advise you check your household insurance policy to ensure items like this are included on your insurance included in the cover, particularly loss outside the home environment.

Please also be aware that you will still be liable for (have to pay) the monthly payments to CPU for the full term of the iPad purchase agreement contract in the event that the iPad is lost in this way and is not covered by the insurance.
